Message to Participants

Welcome to the 2012 ECAR student technology survey. This survey should take you no more than 15 minutes to complete, and your responses are anonymous. We ask questions about your experiences with, and attitudes toward, technology and your academic experiences. Your responses will help people on your campus and beyond understand how to use technology more effectively to benefit students. There are no right or wrong answers; we'd just like you to answer as honestly as you can. Participation in the survey is completely voluntary, and at any point you can choose to exit the survey.

You must be at least 18 years old and a full-time or part-time undergraduate student to complete this survey. Click the “Next” button below if you agree to participate.
